Summary

I am a computer science student who wants to challenge myself with a data analyst job. I would like to have the opportunity to participate in real-world projects to gain more experience in the field of analyst.

Skills

Programming Languages: Python Basics

Basic Knowledge: Machine Learning

Data Processing: Pandas, Numpy, Excel

Data Visualization: Matplotlib, Seaborn, Power BI

Database Management: MySQL, SQL Server, NoSQL

Projects

Sales Performance

- Clean and transform data.
- Build the data model.
- Create DAX measures.
- Design charts.
- **Project link:** <https://github.com/viettrung23/Power-BI>

Sales Analytics

- Clean and transform data.
- Data preprocessing.
- Designed automated data entry forms using Excel Macro (VBA) to optimize processes.
- Interactive charts and reports created using pivot tables.
- **Project link:** <https://github.com/viettrung23/Excel>

Churn Model

- Data visualization and exploration.
- Data preprocessing.
- Building a Machine Learning model for "Customer Churn Prediction".
- Evaluation and comparison of model results.
- Model optimization.
- **Project link:** <https://github.com/viettrung23/ChurnModel>

Education

Ton Duc Thang University
Bachelor of Computer Science

2021-2025
GPA: 7.79

Certifications

- APTIS - B2
